

# Protect your know-how!

The thinnest and most tactile sensitive glove for

- Insemination
- Ultrasound
- Calving, foaling and pulling piglets

**Safer and flexible**

**Higher sensitivity** due to specific finger shape

**More resistance:** does not lengthen or tear thanks to its multi-layer copolymer

**Enhanced work comfort** due to its smooth & ultra thin film

**Non-traumatic** to the animal: smooth and invisible edge

WORLD LEADER IN REPRODUCTION BIOTECHNOLOGIES
